Coding Projects

- Experience doing projects in a range of different languages.
- Good at troubleshooting errors in code and in the system.
- Worked on a team for a summer doing commercial landscaping.

## WORK EXPERIENCE

**Ricon Consulting Inc (Junior Programmer)** May 2018 – May 2019  
My role was to help with some projects. I made a website for a customer, test code and log errors, and blacklist IP Addresses that were trying brute force attacks.

**BP Landscaping** May 2019 – Sept 2019  
I was a crewmember, my role was to help maintain commercial properties by cutting grass, picking weeds, and cleaning up garbage.

## EDUCATION

**Computer Programmer** Sept 2019 – Dec 2020  
*Sheridan College (Davis Campus)*  
Completed Courses: Java, Web Development, SQL, C#, Computer Math Fundamentals, Networking, and Linux.

## VOLUNTEER WORK

**Crosspoint CRC Sound Team** July 2019 – Current  
In charge of mixing the sound for services. But since March 2020 I oversee live streaming of all the services due to COVID-19. I helped get the church setup for streaming within a week insuring we never missed a service.
